

**(विषय) Subject: आईआईटी भिलाई में कैपस प्लेसमेंट एवं समर इंटरनशिप भर्ती में भाग लेने हेतु आमंत्रण | Invitation to Participate in the Placement Program at IIT Bhilai.**

(महोदय, महोदया) Dear Sir/Madam,

Greetings from the Indian Institute of Technology Bhilai.

It is our pleasure to introduce the Placement Program at IIT Bhilai and extend a warm invitation to your organization to be a part of our recruitment and internship initiatives. We begin by offering a brief overview of our institute.

**About IIT Bhilai**

Established in 2016, IIT Bhilai entered its 10th year in July 2025. Since inception, the institute has been at the forefront of academic innovation, focusing on research-oriented education and interdisciplinary learning. With a strong faculty-to-student ratio of approximately 1:10—among the best across all IITs—IIT Bhilai offers a nurturing and academically rigorous environment. We also place strong emphasis on inclusivity, especially towards female students, who currently make up 22.45% of our student body, with continued efforts to improve this further.

**Academic Programs**

IIT Bhilai offers a diverse array of undergraduate, postgraduate, and doctoral programs designed to provide both breadth and depth in technical education, supported by hands-on learning and a project-based approach. The institute currently offers:

- **BTech Programs in:**  
Computer Science and Engineering, Data Science and Artificial Intelligence, Electrical Engineering, Mechanical Engineering, Materials Science and Metallurgical Engineering, Mechatronics Engineering, and Electronics and Communication Engineering.
- **MTech Programs in:**  
Bioengineering, Biomedical Devices, Computer Science and Engineering, Data Science and AI, Electric Vehicle Technology, Power Systems and Power Electronics, Control and Instrumentation, Electronics and Communication Engineering, Microelectronics and VLSI, Materials Science and Metallurgical Engineering, Design and Manufacturing, Thermal and Fluids Engineering, and Mechatronics Engineering.
- **M.Sc. Programs in:**  
Physics, Chemistry, and Mathematics and Computing.
- **PhD Programs** across multiple disciplines including:  
Bioscience and Biomedical Engineering, Chemistry, Computer Science and Engineering, Electrical and Electronics Engineering, Data Science and AI, Liberal Arts, Mathematics, Mechanical Engineering, Mechatronics Engineering, and Physics.

Our curriculum encourages interdisciplinary learning, includes liberal and creative arts, and offers BTech Honors options for specialization.

### Research and Global Collaborations

IIT Bhilai boasts a distinguished faculty body of 86 members, all of whom hold PhDs from premier institutions in India and abroad. The institute is already engaged in high-impact research and industry collaborations with organizations such as ISRO, DRDO, MoE, MHA, SPARC, Bharat Electronics Ltd., and international institutions like Northwestern University (USA).

We are also expanding our global presence through collaborations, notably with the National Chin-Yi University of Technology (NCUT), Taiwan, facilitating language training, faculty exchange, and student visits. IIT Bhilai has also signed MoUs with leading Indian research institutions such as CSIR-NCL, C-MET, and PRSU.

### Campus and Infrastructure

In August 2023, IIT Bhilai moved to its permanent campus spread over 430 acres in Bhilai, Chhattisgarh. Designed to be GRIHA 5-star rated, the campus emphasizes sustainability with zero wastewater discharge. The first phase accommodates 1,200 students, with future expansions planned to house 7,500 and 12,000 students in subsequent phases.

State-of-the-art laboratories—such as Digital Fabrication Lab, Embedded Systems Lab, and specialized labs with FESEM, AFM, HR-TEM, NMR, and upcoming Battery Fabrication and XPS facilities—ensure our students receive practice-intensive, hands-on training from the early stages of their academic journey.

### Student Life and Extracurriculars

Beyond academics, IIT Bhilai nurtures well-rounded individuals through vibrant student-led clubs and societies like the Space Exploration Society, Codification, Electromos, Pixel Snappers, and more. Our students actively participate in national events, including the Inter-IIT Sports Meet, and social initiatives through NSS activities like Swachh Bharat and plantation drives.

IIT Bhilai has demonstrated outstanding performance in science and technology through several high-ranking achievements:

- The institute secured a top 5 position and received the Best Bot Design award at the International Micromouse competition held at IIT Bombay, showcasing advanced skills in robotics and engineering.
- The 'lemon' team participated in the ICPC Pune-Gwalior region, outperforming teams from leading IITs and highlighting exceptional programming and problem-solving abilities.
- IIT Bhilai won first prize at the ELCTROBLITZ competition at IIIT Raipur, reflecting innovation and technical expertise in electronics.

- The team participated in the E-yantra robotics competition and secured 3rd place in the 2023–24 edition under the Control and Logistics theme, demonstrating strong teamwork, robotics proficiency, and system integration capabilities.
- At the Inter IIT Tech Meet 2022-23, the institute won the Gold Medal in the Cognitive Garage challenge, underlining excellence in innovation and collaboration.
- Multiple students have been selected for Google Summer of Code across several years, contributing to open-source projects and gaining valuable experience.
- The institute has won the Smart India Hackathon Software Edition twice and was a finalist in the third attempt, emphasizing consistent innovation and problem-solving skills at the national level.

These achievements collectively highlight IIT Bhilai's leadership and excellence in national and international competitions, programming contests, hackathons, and open-source contributions.

### Training and Placement Program

Our Training and Placement Cell facilitates final-year campus placements (commencing each September), along with summer (May–July) and winter (December) internship programs spanning 4 to 12 weeks. Our final year BTech students can also pursue 6 months internship in either seventh or eight semester.

So far, six successful placement sessions have been conducted, with over 650 offers extended to students. Leading recruiters include **Google, Amazon, HPCL, Warner Bros Discovery, MECON, DE Shaw, Intuit, Applied Materials, Sprinklr, Commvault, Paytm, Schneider Electric, Mesho, Atonarp, Dunzo, AirAsia Technology Centre, and Larsen & Toubro**, among others. We look forward to hosting your esteemed organization for our upcoming **2025–2026 placement session starting in September 2025**, and to exploring internship, recruitment, and training partnerships.

We sincerely hope your organization will become a valued partner in our ongoing journey of academic and professional excellence. Thank you, and we look forward to hearing from you.

Warm regards,

(सादर धन्यवाद) Thanks and Regards,

*S. Pramanik*
